Listing of Claims:

Claims 1-64 (canceled).

65. (Currently amended) A pharmaceutical composition comprising:
dalbavancin containing MAG in an amount of less than about 3 mole percent;
at least one ~~effective~~ stabilizer, wherein said stabilizer inhibits degradation of one or more
of the components of dalbavancin to less active or inactive materials;
wherein the composition is lyophilized; and
wherein the lyophilized pharmaceutical composition has a pH from about 3 to about 5
when reconstituted with water.
66. (Previously presented) The composition of claim 65, wherein the dalbavancin contains
MAG in an amount of less than about 2.5 mole percent.
67. (Previously presented) The composition of claim 65, wherein the dalbavancin contains
MAG in an amount of less than about 2 mole percent.
68. (Previously presented) The composition of claim 67, wherein the aqueous solution
comprising the pharmaceutical composition has a pH from about 3.5 to 4.5.
69. (Previously presented) The composition of claim 68, wherein the stabilizer comprises at
least one sugar.
70. (Previously presented) The composition of claim 69, wherein the dalbavancin contains
about 85 to 96 mole percent of B₀.
71. (Previously presented) The composition of claim 65, wherein the dalbavancin contains
MAG in an amount of less than about 1.5 mole percent.
